

Leave Policy During Training Period (SOP)

Version: 1.0

Effective Date: 1 May 2025

Prepared By: Training Department

Approved By: Nishant Sharma – Vice President & Himanshu Narang – Sr. Director Operations

Next Review Date:

1. Purpose

The purpose of this SOP is to define the leave policy applicable to employees undergoing training, to ensure discipline, consistent participation, and maximum learning effectiveness during the onboarding or upskilling phase. Training is a critical period that lays the foundation for future performance, and any disruption due to absenteeism can impact both the employee's success and the team's operational readiness.

2. Scope

This policy is applicable to:

- All new joiners undergoing induction or initial job training.
- Existing employees enrolled in mandatory upskilling/reskilling programs.
- Temporary, contractual, and permanent staff participating in structured training sessions conducted by the organization.

3. Policy Guidelines

3.1 Attendance Requirement

- **100% attendance** during the training period is mandatory.
- Employees must be **present for the full duration** of each training day.
- Late arrivals or early departures will be treated as Half Day.

3.2 Leave Restrictions

- Leaves (planned or unplanned) are **strongly discouraged** during training unless it is a **genuine medical emergency** or **critical personal reason** supported with valid documentation.
- No casual leave or planned vacation will be sanctioned during this period.
- Prior approval must be taken in writing from the **Training Manager and HR**, and only exceptional cases will be considered.

3.3 Medical or Emergency Leave

- In case of illness, the employee must notify HR/Trainer at the **earliest possible time**.
- A **doctor's certificate** and **fitness to resume work note** must be submitted upon return.
- Repeated health-related absences may require review by the company.

3.4 Uninformed Absence

- Absence without any intimation is considered **unauthorized** and will result in immediate escalation.
- After 1 day of uninformed absence, HR will attempt contact. If the employee remains unreachable for 2 or more days, it may result in **termination of employment** under job abandonment policies.

4. Compliance Expectations

- Employees are expected to treat the training period with **equal seriousness as active employment**.
- Trainers and HR will monitor attendance and punctuality daily.
- Leave records will be **documented and evaluated** at the end of training to determine eligibility for confirmation or further deployment.

5. Repercussions for Non-Compliance

Failure to adhere to the leave policy during training can lead to the following consequences:

Violation Type	Possible Repercussions
Uninformed Leave	Written warning; disqualification from training; possible termination
Frequent Absenteeism (even if informed)	Review of performance and retention; training extension or re-initiation
Falsified Leave Reason	Disciplinary action including suspension or termination
Non-submission of medical documents post-absence	Treated as unauthorized leave; disciplinary action

6. Reporting & Escalation Process

- All leave requests must be submitted to both the **Training Coordinator** and **HR**.
 - Emergency leave can be verbally reported, but must be followed up with a formal request and documents.
 - Repeated violations will be escalated to the **HR Head and Business Unit Manager** for further action.
-

7. Review and Acknowledgement

- This SOP is reviewed annually or upon changes in training policy.
 - All trainees must sign an acknowledgement of understanding before the commencement of training.
-

Note: This policy is aligned with the company's broader HR compliance standards. It aims to foster responsibility, commitment, and respect for structured learning environments.
